VisCalor

VisCalor bulk

World's first composite with thermo-viscous-technology

... warm it

... flow it

... sculpt it

VisCalor® / VisCalor® bulk

- Innovative material**

By pre-warming, the material is flowable during application and can be sculpted immediately afterwards (thermo-viscous-technology)

- Time-saving**

Efficient restorations with only one material

- Excellent handling**

Bubble-free application with a narrow and long cannula

VisCalor®

Thermoviscous universal composite

My restoration: Biocompatible, naturally!

Admira® Fusion

- The worldwide first purely ceramic-based restorative material
- By far the lowest polymerisation shrinkage (1.25 % by volume) and particularly low level of shrinkage stress in comparison to all conventional restorative composites
- Inert, so excellent biocompatible and extremely resistant to discolouration

Admira® Fusion

'I am **convinced** by GrandioSO's **similarity to natural teeth!**

Dr. H. Gräber, Munich, Germany

Our composite for high demands. The filling material scores with tooth-like properties combined with high user-friendliness and natural aesthetics.

- Universal nano-hybrid restorative material
- **Excellent physical properties**
Very high filler content of 89 % w/w
- **Universal**
For the highest demands in both the anterior and posterior tooth regions

Universal adhesive – It's your choice!

A bonding for all cases! With Futurabond U, the only dual-curing universal adhesive in *SingleDose*, we have a clear mission: To provide you a bonding which offers only advantages and reliability and makes any other adhesive system in your practice redundant.

Futurabond® U

- Dual-curing universal adhesive
- One bond for all cases – makes all other adhesives in the practice redundant
- Self-etch, selective-etch or total-etch – free choice for the practitioner
- Outstanding versatility of application

Grandio – The classic nano-hybrid

With Grandio, VOCO has set standards in 2003 as the world's first supplier of a new generation of nano-hybrid composites. Proven millions of times on all continents, Grandio is still the nano-composite of choice! The innovative nano-technology makes Grandio a high-performance composite, which is known for its physical qualities as well as its optimal handling properties – everywhere.

Grandio®

- Ideal consistency and simplest handling
- E-modulus comparable to natural tooth substance
- Pronounced abrasion resistance and chewing stability
- High biocompatibility thanks to low resin content

Preparation and lining with Grandio Flow

Finished restoration with Grandio

Grandio Flow – also unrivalled as flowable!

From the restoration of minimally invasive cavities to extended fissure sealing and the repair of veneers - with Grandio Flow, all the advantages of Grandio can also be used in the flowable version. Thanks to its clear technological advantage, Grandio Flow leaves conventional flowables far behind: The resin content is up to 50% lower than that of conventional flowables, which leads to top results in the areas of surface hardness and abrasion resistance.

Grandio® Flow

- Optimal flowability
- High filler content of 80 % w/w
- Exact shade match to Grandio
- Microhybrid composite – like physical properties

Traditional flowable, unfilled area

Grandio Flow, filled with nano-particles

Amaris – for brilliant results

Naturally simple, simply beautiful! When it comes to the highest aesthetics, we recommend Amaris. The special thing about this composite of the extra class: The system allows you a high degree of flexibility in shading as the two coordinated working steps lets you change the shade continuously – even during layering! Thus, a highly aesthetic result does not only depend on the initial shade selection.

Amaris®

- Optimal polishability, abrasion resistant and glossy
- Two easy steps, low material costs
- Nature-identical layering
- Covering of the entire shade range through the combination of only eight components

REF 1949 Starter set Caps 32 x 0.25 g (4 each of O1, O2, O3, O4, O5, TL, TN, TD), Amaris Flow syringe 2 x 1.8 g (HT, HO), shade guide, accessories

x-tra fil: Amalgam – no thanks!

You all might know the patients wish for an amalgam-free restoration but at amalgam prices. x-tra fil was specially designed for the basic treatment in the posterior region (class I and II) and for core build-ups. Thanks to the possibility of applying increment thicknesses of up to 4 mm in only one working step and the short light-curing time of 10 seconds, you and your patients benefit from a very short treatment time.

x-tra fil®

- Curing depth 4 mm
- Only 10 s curing time per layer
- Universal shade
- Reduced working time, especially in combination with any Futurabond *SingleDose* adhesive

Impressively precise!

Precisely fitted dentures require a material that ensures optimal impression taking with its properties – from the beginning to the pouring. This service concept has been consistently implemented in V-Posil.

V-Posil®

- Precision impression material, VPS
- Highly hydrophilic A-silicone for maximum precision
- Long working time combined with a short intraoral setting time
- Exceptional toughness and recovery after deformation ensure safety during or after removal
- Good hydrophilicity, even after setting, renders pouring and thus the prosthetic restoration perfect

Denture relining – know how!

Perfectly relined – in one session only. Ufi Gel hard C and Ufi Gel SC are the ideal dream team for the daily prosthetic work. The system offers each application case a special relining solution and can be applied easily and time-saving chairside. Should further adjustments be necessary later, these additions can be made over the years.

Ufi Gel® hard C

- Hard direct denture relining
- Complete, hard relining chairside, in just one session
- Methyl methacrylate-free
- Neutral taste and odour

REF 2215 Set cartridge 80 g, adhesive bottle 10 ml, accessories

Ufi Gel® SC

- Permanently soft, cold-curing relining material on silicone base
- Top quality relining silicone
- Complete relining in one single session (chairside)
- Remains permanently soft

REF 2041 Set cartridge 50 ml, adhesive bottle 10 ml, glazing base 10 ml, glazing catalyst 10 ml, accessories

CLEAN and enJOY

With CleanJoy tooth cleaning becomes a complete pleasure!
The paste gently removes plaque and discolouration and tastes delicious in the flavours mint, cherry and caramel. Xylitol and fluoride (700 ppm) also contribute to the remineralisation of teeth and strengthening of the natural tooth structure.

CleanJoy®

- Stable, homogenous consistency, no splashing (2,000 - 3,000 r / min)
- No parabens
- Available in three abrasion grades, thus can be individually adjusted to each situation
